Hi,

Wanted to share with you some nice feedback from OECA on our Regional Strategic Plan for Enforcement, since you all did a lot of the thinking that went into it –

Dave

Subject: your RSP

I enjoyed reading your plan today. Not surprisingly it is exceptionally thoughtful and well-written. I couldn't help but think as I read through it, that if the Biden people were to read your plan as one of their first introductory documents, they would get a sense not only of what the regions do, but also a glimpse of the knowledge and strategic thinking that ECAD directors bring to the table. Your plan really does what these were intended to do – highlight the specific environmental and public health issues faced by your particular region, and your plan for addressing those issues given your staffing, experience, states, etc. I look forward to discussing your plan with you in February.
